9K

GENERAL PURPOSE, LOW PROFILE SCISSOR LIFT DESIGNED TO ACCOMMODATE A WIDE RANGE OF VEHICLES

The Hofmann® 9K variolift™ Double-Scissor General-Purpose lift is designed to accommodate a wide range of vehicles. It's low-profile design allows for easy drive-over or it can be installed as a flush-mount.

KEY FEATURES

- Low-profile drive over height of 5.3"
- Lifts straight up with no fore or aft movement
- Open front and rear with no cross member for maximum accessibility
- Dual hydraulic synchronization
- 18 mechanical locking positions with air-actuated release
- Non-slip textured lifting pad surface
- Extendible lifting pad, from 61.25" to 81.5"
- Surface-mount or flush-mount configuration
- For the best performance and maximum versatility to service the widest range of vehicles, all surface-mount installed lifts should be installed with the platforms at 23" apart and with the SOET9000LW kit
- SOET9000LW kit includes; long drive over ramps for low-clearance vehicles, outriggers for increased drive over for wider vehicles and additional SOE-VZ975074 connectible rubber blocks. Overall length with the kit installed is 164"
- SOET9000FM lifts should be ordered with SOE-VZ970052 hose extension kit and SOE-VZ970133 foundation insert plates

ANSI/ALI ALCTV:2011

- Independently Tested and Validated, ALI Certified to the current Automotive lift standard

AVAILABLE MODELS

9k variolift Double Scissor XL SOET9000

TECHNICAL SPECIFICATIONS

Capacity	9,000 lbs
Surface mount max lifting height	79.75"
Flush mount max lifting height	74.5"
Surface mount lowered height	5.3"
Flush mount lowered height	0"
Lifting pad width	25.5"
Surface mount overall width	87"
Flush mount overall width	83.4375"
Surface mount lift length with SOET9000LW	164"
Flush mount lift length	80.5"
Lifting time (with full load)	53 Seconds
Width between lifting pads	23"
Power requirements	230V 1Ph 60Hz
Air supply requirements	90 PSI
SOET9000LW shipping weight	650 lbs
SOET9000 shipping weight	2,700 lbs
